The Smart Mirror does not have the same standard features as the other ID Bath Mirrors due to its unique nature.

The **Smart** mirror is exactly that – it can reflect you in the mirror or come to life and broadcast a YouTube movie, a Netflix series, let you read the newspaper, play music or allows you to see if it is sunny or raining outside without the need to look out the window. A tablet computer hidden in a mirror.

OPTIONAL FEATURES

Magnifying glass

For more info, sizes and finishes available, please check www.idbath.com
